

ATTENTION MIDDLE SCHOOL PARENTS!!

A TDAP Booster shot is required for 7th & 8th grade students. By February, all 7th and 8th graders are required to have documentation of this shot to continue to attend school. Influenza vaccine is highly recommended for students as well. PLEASE check your child's record to be sure that he/she has the following:

TDaP Vaccine – 1 dose

TDaP contains protection against whooping cough (pertussis). It is a disease that can be spread by teenagers and adults to babies, and it can cause severe illness, even death for vulnerable babies. This vaccine is also recommended for adults when the next tetanus booster is due, which will help protect adults and our community against whooping cough.

If your child has not had the TDaP shot (after age 10) call your doctor's office or a clinic below for an appointment. Please give an updated immunization record to your school as soon as your child gets the TDaP vaccine. Thank you!

- Lane County Public Health 541-682-4041
- South Eugene Health Center 541-790-8020
- North Eugene Health Center 541-790-4445
- Sheldon Health Center 541-790-6644
- Churchill Health Center 541-790-5227

STATEWIDE IMMUNIZATION EXCLUSION DAY IS FEBRUARY 15, 2012

Booster Shot Update for School Health Record (return to school office)

Student's Name: _____ **DOB** _____

TDaP - Date _____

Note: TDaP is given to adolescents and adults 10-64 years of age. It is different from DtaP which is given to children younger than 7 years
