Information:

Charlie began with a brief review of the Kennedy schedule for next year, which will be very similar to the one used this year.

We took some time to look at our upcoming 2008-2009 school calendar. A copy was handed out to the Site Council members. Kennedy is currently well over the 900 seat hours required by the State. Our Kennedy early release days continue to be on Friday and our DAC day was moved from March to October.

We are continuing the process of naming a new Kennedy mascot, and it was suggested that our students be given a survey in their block classes asking them for their input.

We are discussing the possibility of pass/fail electives, where a student could earn an "A", B and C would be a "Pass", and under a "C" would be a No Pass/Fail. This would help our teachers with current workload issues.

This was our last meeting for this year.
