April 1-12 we will be studying the question: How Can We Achieve Happiness? This unit is made up of 10 assignments: 6 reading assignments, 3 sets of pairing questions, and a final assessment. Additionally, students will be exposed to several speakers such as Harvard Business School professor Michael Norton, poet Nikki Graves, and author Aisha Chaudhari via TED Talks.

Read180 (6th, 7th, and 8th):

The focus this term will be on descriptive writing, grammar, and mechanics (for example: beginning a sentence with a capital letter, ending punctuation, no random capital letters in the middle of words). As in previous terms, the first 15-20 minutes will be dedicated to student choice reading. Your students may borrow books from me or bring a title from home to read. Following that time, students will work on responding to writing prompts or revising previous days work. Two days a week students will work on the Read180 computer program beginning with Lexile level measurements and phonics testing then progress to on-line reading and comprehension quizzes.
