Read180 (6th, 7th, and 8th): Students will apply, design, and develop written composition work through mentor texts and choice reading.

LA8: Our texts for The Importance of Being Earnest came in too late for us to study this year. Instead, we will take a close look at poetry and a few of its myriad forms: sonnet, free verse, metered verse, and slam. Students will be tested on the definition and usage of 16 literary devices, respond to 8 poems, and evaluate the effectiveness of slam poet performances.

Alison Machado

Extension:4353

machado_a@4j.lane.edu

Science 6:

Monday: Review for Earth Science Test. Concept Map

Tuesday: Begin test essay question in MyAccess

Wednesday: Review for test. Continue with MyAccess essay question and receive short answer questions to study.

Thursday: Final Earth science test

Friday: 6th grade field trip.

Spanish Explore

June Focus: We will begin our piñata project and it will take the two weeks left in this school year. Please look at ParentVue for current grades, these are almost final since the piñatas are not worth that many points.

Have a great summer!

Spanish 1

June Focus: We starting and finishing our Spanish-speaking country research project. The week of June 10 students will be presenting their projects to the class. Please look at Parent Vue as grades are basically finalized (only the 40 points for this project are missing). I will be sending a summative grade report with this trimesters letter grade, the full year letter grade, and where your student will be placed next year (hopefully).

Have a great summer!

Spanish 2

June Focus: We will be finishing our last unit test of the year. We will then be transitioning to our piñata making and festivities.

Have a great summer!

Mike Stead
