

# McCornack Internet Use Contract

McCornack students are among the most fortunate in our District as they have computers in their classroom, access to a student set of wireless laptops and full-time instruction in our Computer Lab.

McCornack students will be technologically enriched in many ways -- from basic keyboarding skills to full-blown web-based research projects. Depending on their grade level, they will be taking digital photographs and incorporating them into presentations and movies, creating their own music using the latest software, learning about Internet safety as well as basic computer maintenance. All in all, it will be a most exciting year for everyone.

Before they can use the McCornack computers however, each student's parents or guardians must read the 4J Acceptable Use Guidelines and sign the permission form below. Without your signature, your child will not be allowed computer access. This document will be on file throughout your student's attendance at McCornack Elementary School.

## 4J Acceptable Use Guidelines

The Eugene School District believes that access to 4JNet is one of the resources that promotes educational and organizational excellence. Students should use 4JNet in a responsible, efficient, ethical, and legal manner. The use of 4JNet is a privilege, not a right, which may be revoked at any time for inappropriate behavior. Users assume responsibility for understanding the policy and guidelines as a condition of using 4JNet. Use of 4JNet that is inconsistent with this policy may result in loss of access as well as other disciplinary or legal action. The following uses of 4JNet are unacceptable and may result in suspension or revocation of network privileges.

- ▶ Violation of School Board Policy, District Administrative Rules, or any provision in the District Student Rights and Responsibilities Handbook.
- ▶ Transmission of any material in violation of any local, state, or federal law. This includes, but is not limited to: copyrighted materials, threatening or obscene material, or material protected by trade secret.
- ▶ The use of profanity, obscenity or other language that may be offensive to another user.
- ▶ Any form of vandalism, including but not limited to, damaging computers, computer systems, or networks, and/or disrupting the operation of the network.
- ▶ Copying and/or downloading commercial software or other material (e.g. music) in violation of federal copyright laws.
- ▶ Use of the network for financial gain, commercial activity, or illegal activity, e.g. hacking.
- ▶ Use of the network for political activity.
- ▶ Use of the network to access pornographic or obscene material.
- ▶ Creating and/or placing a computer virus on the network.
- ▶ Accessing another person's individual account without prior consent or accessing a restricted account without the prior consent of the responsible administrator or teacher. The person in whose name an account is issued is responsible at all times for its proper use. Passwords should never be shared with another person and should be changed frequently.
