INSTRUCTIONS FOR ACCESS:

IF YOU HAVE ALREADY AN ACCOUNT IN CIS (MOST SOUTH STUDENTS...), LearningExpress Library is accessible within CIS. See the two paragraphs at the end of this document about avoiding double accounts.

1. Go to the South Library homepage <http://schools.4j.lane.edu/south/Library/>

Look for the Learning Express logo in the BOTTOM RIGHT-HAND CORNER BELOW EASYBIB LINK

2. In the upper and lower right-hand corner on the homepage, click on **REGISTER**
Creating an account allows you to stop mid-test and come back to it later.

3. Fill out the form and click on Create Account.

Your email address will be your User Name and you create your own password.

Note your user name and password for future reference!

4. On the homepage, choose the **COLLEGE PREP CENTER** link.

5. Choose **Prepare for your AP Exam**. SAT and ACT practice tests are also available!

AP® Calculus AB Practice Exam 1: Section I

Before you begin your test, it's very important to take a few minutes to review these instructions to be sure you get the most from your online testing experience.

About This Test

The Advanced Placement (AP) Program® is designed to allow high school students to pursue college-level studies while attending high school. Colleges use AP scores to determine students' eligibility for advanced course placement, and/or course credit. The AP Calculus AB exam is usually given to high school students who have completed a year's study in a college-level mathematics course. The official exam is designed to measure your college-level mathematics skills, including graphical, numerical, analytical, and verbal calculus, along with overarching concepts like derivatives, integrals, limits, applications and modeling, and approximation.

The official exam is divided into two sections: multiple choice and free response. However, this practice test contains only multiple-choice questions. On the official test, the multiple-choice section will account for 50% of your official score.

Like the multiple-choice section on the official exam, this test is broken in two parts. Part A consists of 28 questions for which a calculator *cannot* be used. Part B contains 17 questions, some of which will *require* the use of a graphing calculator. The calculator referenced in the answer explanations on this practice exam is the TI-83 Graphing Calculator.

This is a timed test, so be sure to practice answering the questions in the time allotted to help prepare you for the official test.

45

TOTAL
QUESTIONS

105

MINUTES
TO
COMPLETE

Choose Your Test Mode

- ☒ **Simulation**
The test will stop when the timer is up.
- ☐ **Learner**
View the answers to each question as you go along to help you study.
- ☐ **Practice**
See answer explanations after you have finished. If the test is timed, the timer will display but will not be enforced.

Start Test

7. Choose which TEST MODE you want to do.

You can take a test over time and skip and come back to a question, but once you finish a section and choose “*Score My Test*”, you cannot go back and redo the answers.

Choose Your Test Mode

☒ **Simulation**

The test will stop when the timer is up.

☐ **Learner**

View the answers to each question as you go along to help you study.

☐ **Practice**

See answer explanations after you have finished. If the test is timed, the timer will display but will not be enforced.

After you choose “*Score My Test*” you will receive your score as well as the correct answers to any missed questions. It will also explain any reasoning behind questions/answers.

If the test includes a free-response section, after you choose “*Score My Test*” the database will give you several high scoring examples of how that question could have been answered as well as the reasoning behind it. Students will also see the rubric-scoring guide.

8. Once you start the test you have the choice of stopping and continuing later.

9. You can then either log out, start another test or continue a previous test.

The screenshot shows the 'My Center' dashboard. At the top, there's a 'My Center' header. Below it, a navigation bar includes 'Portfolio' and 'Profile' tabs. A secondary navigation bar has 'Tests', 'Tutorials', 'eBooks', and 'Computer Courses' tabs. The main area displays '0 Tests Completed' and '1 Tests in Progress'. A 'TEST CATEGORY' dropdown is set to 'All'. Below this, a list of tests is shown. The first test is 'AP* Calculus AB Practice Exam 1: Section I' by the 'College Preparation Center', with links for 'Start New Test' and 'Delete'. A table below this test shows its status: 'In Progress - 0% Complete' with a progress bar, a score of 'N/A', and a date of '06-Mar-2014 12:36:16'. The table also includes a 'Resume Test' link and a 'Delete' link. The second test listed is 'AP* English Lit. and Comp. Practice Exam 2: Section I' by the 'College Preparation Center', also with 'Start New Test' and 'Delete' links.

Date	Status	Score	Actions
06-Mar-2014 12:36:16	In Progress - 0% Complete <div></div> 0 out of 45 questions completed	N/A	Resume Test Delete

The next time you log in choose,

My Center

in the upper right-hand corner to make test available to you again.

PLEASE NOTE:

The ***LearningExpress Library*** is also available in Oregon's Career Information Systems (CIS). Students should choose which way to access

Why? Because the LEL account in CIS is associated with a user's CIS portfolio login so is separate and distinct from any account the user creates via the LEL link on OSLIS. In other words, if a user creates a ***LearningExpress Library*** account via the OSLIS link, the results of any LearningExpress tests saved in that account cannot be accessed via the CIS account, and vice versa.

TO ACCESS LEARNINGEXPRESS THROUGH CIS:

Log in to your CIS account (***My Portfolio*** – blue box on right side of page) then, with your cursor, hover over the tab: My Portfolio at the top of the page.

Under *Helpful Tools*, choose *Learning Express* (Practice Tests). After clicking on Continue, you will get right in to LEL without having to log in to it separately because the LEL account is connected to your existing CIS account. When you are done using LEL and log out, you will still be logged in to CIS.
